It is understood that the hours of work reflect the current scheduling arrangements and are subject to change as determined by the Employer.

(May be required to work anywhere within the program)

The 30 bed Geriatric Rehabilitation Unit and the 20 bed Musculoskeletal unit are part of Specialized Geriatric Services. We provide comprehensive geriatric assessment and management as well as an intensive rehabilitation program. Our patients are typically admitted from acute care and participate in our program for approximately 4-6 weeks. Upon discharge, our patients commonly return to independent living in the community. As an integral part of an expert health care team, this is an exciting opportunity for clinical learning and skill development.

Essential Qualifications

- Current certificate of competence with the College of Nurses of Ontario
- Current certificate in pharmacology
- Certification or refresher in CPR, within the last year
- Experience and knowledge of the care of patients requiring musculoskeletal rehabilitation and geriatric rehabilitation
- Ability to establish positive relationships with customers and to work as an effective team member
- Demonstrated ability to apply and document the nursing process
- Excellent organizational skills and problem solving skills
- Superior communication skills both written and verbal
- Ability to apply effective body mechanics and meet the physical demands of the position
